Arunya Foundation

Arunya Foundation – Teaching Syllabus & Learning Framework

The Arunya Foundation aims to provide foundational education to children through engaging, inclusive, and activity-based learning methods. The program focuses on basic literacy, numeracy, life skills, and value-based education, ensuring holistic development.

The curriculum is designed for three age groups:

Group	Age	Type of Learners	Focus
Group A	4-6 years	Early Learners	Basic alphabet, varnamala, counting, and learning through fun activities and visuals
Group B	7-11 years	Primary Learners	Strengthening reading, writing, basic math, phonics, and simple communication skills
Group C	12-15 years	Secondary Learners	Vocabulary building, reading comprehension, basic operations in math, and spoken English skills

ARUNYA FOUNDATION
LIFTING MINDS. CHANGING LIVES.

Learning Objectives

The primary objectives of the program are:

- **Build Basic Literacy & Numeracy** : Develop foundational skills in reading, writing, and arithmetic through simple, practical, and activity-based methods.
- **Enhance Confidence & Communication :** Encourage children to express themselves freely, participate in discussions, and improve their speaking and listening skills.
- **Inculcate Good Habits & Moral Values :** Promote discipline, cleanliness, respect, empathy, and responsible behavior in daily life.
- **Make Learning Interactive & Enjoyable :** Use games, storytelling, and hands-on activities to create a fun and engaging learning environment**.**
- **Ensure Accessibility for All :** Provide inclusive and easy-to-understand education that caters to diverse learning needs and backgrounds.

Teaching Methodology

The teaching approach will be interactive, visual, and activity-based:

Key Methods

- Use of shapes and visual aids to teach numbers and letters
- Teaching through chart papers and illustrations
- Use of real-life examples for better understanding
- Encouraging participation and hands-on learning

Session Structure

Each session will follow a structured format with 30 minutes of volunteer session before beginning the session with children

Step 1: Warm-Up (5–10 minutes)

Quick questions based on previous learning

Short fun activity or game to engage students

Step 2: Revision (Important Component)

Brief revision of the previous session

Reinforcement of concepts already taught

Step 3: Academic Learning

ARUNYA FOUNDATION
LIFTING MINDS. CHANGING LIVES.

For Younger Children:

- Alphabet and phonics
- Numbers (1–100)
- Counting objects
- Ascending and descending order
- Basic addition and subtraction

For Older Children:

- Basic English speaking
- Vocabulary development
- Multiplication tables
- Concept-based mathematics

Activity-Based Learning

Activities play a vital role in making learning engaging, meaningful and enjoyable, especially for young learners. They help children understand concepts better through practical experience rather than rote memorization.

Creative Activities

- Drawing (House, School, Flag, etc.)
- Coloring and craft

Interactive Activities

- Storytelling sessions
- Role-playing

Educational Games

- Jump and Count
- Action Words Game
- Memory Game
- Pass the Ball

Value Education and Life Skills

ARUNYA FOUNDATION
LIFTING MINDS, CHANGING LIVES

Students will be guided to develop essential life values that support their overall growth and behavior:

- **Cleanliness & Hygiene:** Daily habits like handwashing, personal cleanliness, and keeping surroundings clean.
- **Respect for Others**: Being polite, listening to elders/peers, and valuing diversity.
- **Personal Safety Awareness**: Understanding safe vs unsafe situations, basic self-protection, and asking for help.
- **Sharing & Kindness**: Encouraging empathy, helping others, and working cooperatively.
- **Discipline & Responsibility**: Following rules, completing tasks, and taking ownership of actions.

Assessment & Progress Monitoring

Assessment is continuous, simple, and stress-free, focusing on understanding rather than memorization.

- **Oral Questioning:** Ask simple, interactive questions to check understanding and improve confidence and speaking skills.
- **Activity Participation:**Learning is assessed through games, drawing, and group activities, encouraging "learning by doing."
- **Observation:Teachers** observe attention, behavior, and interaction to understand each child's progress and needs.
- **Focus on Understanding**:Emphasis on concept clarity, real-life connection, and encouraging questions instead of rote learning.
- **Simple Progress Tracking**:Maintain basic records of skills, improvement, and participation.

This curriculum ensures a balanced approach to education, combining academics, creativity, and values. The aim is to create a safe, engaging, and inspiring learning environment where every child can grow with confidence and curiosity.
